TAMTRON SCALIFT 100 FORKLIFT SCALE

**PRECISION CARGO WEIGHING AND
INNOVATIVE DATA MANAGEMENT
FOR IMPROVED WORKFLOW**

Work smarter, not harder with the Tamtron SCALIFT 100. Eliminate existing bottlenecks and weigh your cargo while loading with a forklift. By reducing unnecessary driving, you minimize emissions and risk of accidents, improving employees' working safety. The Tamtron SCALIFT 100 will boost your operations' efficiency and productivity. We developed the SCALIFT 100 for our customers who require fast, accurate weighing and information management for their core business.

FORKLIFT SCALE SCALIFT 100

EFFICIENT CARGO HANDLING AND WEIGHING

Tamtron Scalift 100 suits all kinds of forklifts. Weighing takes place while loading - it is accurate and fast, saves time by loading efficiently and you easily manage your weighing log.

The operator lifts the load as usual and weighs the load by pressing the weighing button, after which the load slightly descends, the weighing result is displayed on the screen and stored in the weighing log. Weighing information can be transferred to a printer via a RS232 port.

The Tamtron Scalift 100 technology produces exact weighing results. The scale is rugged and informs the driver of overloads based on the given loaded capacities.

SPECIFICATIONS

- ▶ **Weight capacities:** 5t / 18 t / 33t
- ▶ **Weighing precision, FS:** ±0.5 %
- ▶ **Height tolerance:** ±2 cm
- ▶ **Temperature range:** 0–50 °C
- ▶ **Supply voltage:** 12-100 VDC
- ▶ **Power consumption:** 5 W
- ▶ **Serial output:** RS232
- ▶ **Sensor protection:** IP 65

OPTIONS

- ▶ Thermal printer
- ▶ Load height measurement
